

Taha Shaban Kamel

Full Stack Developer

+201023721592 ◇ tahashaban743@gmail.com ◇ Cairo, Egypt ◇ Open to Remote ◇ LinkedIn ◇ GitHub

SUMMARY

I am a web developer with experience in building and managing full-stack applications. I have worked on an LMS platform, developing an admin dashboard for seamless course and user management. Skilled in Laravel, Vue.js, and Nuxt.js, I specialize in creating scalable and efficient web solutions.

EXPERIENCE

Fullstack web developer

Feb '25 — Present

Knowhowsolution

- Developed a comprehensive LMS tabaacademy with an admin dashboard to manage courses, students, and site settings.
- Implemented user roles (admin, instructor, student) with authentication and authorization.
- Built a responsive frontend and multi-language site using Vue.js and Tailwind CSS for an intuitive user experience.
- Developed the backend with Laravel, integrating RESTful APIs for course and student management.

Fullstack web developer

Mar '24 — Sep '24

freelancing team

Remote

- Working on backend and full-stack development projects remotely.
- Developing and maintaining web applications using Laravel, Vue.js, and Nuxt.js.
- Collaborating with clients and teams to deliver high-quality software solutions.

ICPC Competitive Programming Contestant

Jan '23 — Jun '23

AOU

- Participated in the ICPC (International Collegiate Programming Contest).
- Improved problem-solving and algorithmic thinking skills.
- Worked on data structures, algorithms, and competitive programming challenges.

EDUCATION

Bachelor's Degree in CS, Shorouk Academy, Egypt

2021 — 2025

Egypt

- Relevant coursework: Programming Basics C#, Object-oriented programming (OOP), Database Design, Data structure and algorithm, SQL (structured query language), Problem solving, Network, Operating system, ASP.net

PROJECTS

LMS (Learning Management System)

- A course management system with roles for instructors, students, and admins. It allows users to create, enroll in, and manage courses.

Serial Number Store

- Developed a backend API to manage serial numbers, orders, and financial transactions for resellers. Ensured automated inventory management and efficient communication with a web panel and Telegram bot.

ERP System for a Flour Mill

- An enterprise resource planning (ERP) system designed to manage operations for a flour mill, including inventory, production, sales, and finance.

SKILLS
